

# Care Matters, LLC

## Substance Abuse Professional Services

### **“SAP” stands for Qualified Substance Abuse Professional.**

Our professional services provide confidential assessments, therapeutic consultation, case management, and referral services for matters related to substance use, DOT/SAP services, and non-DOT/EAP work related and probation evaluations.

Likewise, most assessments are required to help determine if the individual has a substance/alcohol or other related condition(s). Assessments may include, but are not limited to, SASSI, MAST, MHSF, or other related standardized tests. The evaluator will also give diagnostic impressions supported by the DSM-V.

We also provide private assessments related to home, work, and community matters. This includes persons who are convicted of a DUI, OWI, or other alcohol/drug related driving offenses.

### **What is the Role of a SAP?**

As SAPs, we are the advocate for neither the employer nor the employee. Our function is to protect the public interest in workplace safety. We professionally evaluate the individuals and recommend appropriate education and/or treatment, follow-up tests, and aftercare.

**CALL 248-691-9034**
